REMARKS

Applicants have amended the specification to conform with the formal form of the drawings. In addition, applicants have corrected various inadvertent errors in the specification concerning the reference to certain figures. None of the amendments constitute new matter.

The majority of amendments substitute reference to a figure including reference to panel letters rather than by reference to figure numbers alone.

The description of Figs. 14A-D in the FIGURE LEGENDS was amended to insert the magnification power which was present on the informal drawings but is not included on the formal drawing of those figures.

In addition, reference to "Fig 3, top panels" at page 48 was amended to refer to the bottom panels (with reference to panel letters) as labelled in the figure.
